PROFILE

Third-year Computer Science student (BUT), on a work-study contract at Ellipses. In just over a year I have worked for an IT services firm serving the **BNP Paribas group**, an environmental software publisher and the French Ministry of Education, often from gathering requirements to go-live. Next step: a **selective master's or a grande école** in maths and data.

PROFESSIONAL EXPERIENCE

Web Developer — Sept. 2026 - Present
Éditions Ellipses — Apprenticeship — Paris
France's leading publisher for universities and preparatory classes

- Maintained and extended the web platform (Symfony, PHP, MySQL).
- Code reviews, testing and quality practices within the in-house tech team.

Development Analyst — Apr. 2026 - Jul. 2026
Acelys Services Numériques — Internship · 4 months — Montpellier
IT services company · Client: **BNP Paribas** Personal Finance (Domofinance)

- Gathered business requirements and wrote specifications, in Scrum.
- Implemented **multi-factor authentication** and e-mail filtering.
- Tested partner deliverables, debugged Symfony and React issues.
- **Ansible deployment pipelines** triggered from Bitbucket (dependencies, migrations, go-live), with server access through **SSH keys and tunnels**.

Full-Stack Developer — Jan. 2026 - Feb. 2026
French Ministry of Education — Freelance — Alès, remote
Student accommodation files, schools in the Gard area

- Ran it end to end: **database design**, PHP app, automated workflows.
- Centralised the case files and trained staff on the tool.

Full-Stack Developer — Sept. 2025 - Jan. 2026
Solutions Solstice — Apprenticeship — Paris region
Publisher of environmental monitoring software (DAHS)

- Java features and contribution to the **software certification**.
- Automated SQL queries and AI-assisted analysis of system diagnostics.

IT Systems Manager — Sept. 2025 - Jan. 2026
Aeroboat France — Fixed-term — Toulouse, remote
Aeronautics association, ground-effect craft models

- Built the association's website (WordPress), responsive and SEO-ready.

Retail Sales & Service Advisor — Jul. 2025 - Aug. 2025
Boulanger — Summer job — Lattes

- Customer advice, after-sales support and financing options.

SELECTED PROJECTS

- **Gradient descent** · linear regression, partial derivatives, live demo
- **IPv4 subnetting** · mask, broadcast and host range, bit by bit
- **AC-Motors database** · data models, SQL queries, online playground
- **Requirements specification** · needs analysis, UML, functional specs
- **Neural network from scratch** · Python, NumPy, backpropagation, deep learning

EDUCATION

BUT in Computer Science — 2024 - 2027
IUT d'Orsay, Université Paris-Saclay
13th worldwide, Shanghai Ranking 2026
3-year degree: databases, networks, systems, software engineering, maths.

French Baccalauréat — 2024
Lycée Françoise Combes
Internat d'Excellence de Montpellier
Mathematics and Computer Science, Advanced Mathematics option.

SKILLS

Databases
Advanced SQL, MySQL, PL/SQL, SQLite, data modelling, indexing, Doctrine

Networks & DevOps
TCP/IP, subnetting, routing, Linux, SSH, Ansible, Bitbucket Pipelines, Git

Mathematics
Linear algebra, probability, statistics, graph theory, optimisation

Development
PHP, Symfony, API Platform, Java, Python, C and C++, React, TypeScript

Consulting & methods
Specifications, testing, security (MFA), Agile (Scrum), UML, project management

SOFT SKILLS

Teaching others
Trained staff on a new tool and new scouts

Customer-facing
In-store advice, business requirements

Ownership
Freelance project run end to end

Rigour
Acceptance testing, code review, certification
